(Special to The Herald.) Kemmerer, Wyo., Oct. 31.—Kemmerer is on the verge of an oil boom; a fact, it is already here. At or near the town of Fossil, eight miles west of here, there are now two wells being put down. For some months past the project has been talked of, this talk d speculation being brought about the discovery of the presence of lat was supposedly oil in various rings in this vicinity. This led to an aylsis, which proved beyond the adow of a doubt that oil existed here, d in due course of time the Paragraphy

The shares of the companies working found slow sales at 5 cents per share until the strike in the Paraffine company's well, but started off at 10 cents, then to 15 cents, when a meeting was called by the directors of the Paraffine company taking their stock off the market. When they open for sale again it is expected shares will be eagerly bought at 50 cents per share. The town of Kemmerer, usually so quiet, was the scene of much animation the morning of the strike, everyone taking and buying oil stock. Something over 90,000 shares were disposed of in a very few minutes. Land is being surveyed for miles in every direction. A townsite is being talked of at Fossil, as much as \$16,000 being offered for 160 acres of land for that purpose. Oil experts and investors are coming in onevery train and the hotels are crowded

(Special to The Herald.)

Cheyenne, Wyo., Oct. 30.—Several hundred tons of hay, outbuildings, sheds and about a dozen head of sheep were burned at the Wheeler place, one of the ranches owned by the Warren Livestock company, thirty miles south of here, last night. It is thought the fire was of incendiary origin, as small cattlemen in the vicinity have objected to the running of sheep there. Senator Warren and his manager have gone to the scene to investigate.

Prominent Automobilists In New York Badly Injured.

New York, Oct. 39.—As Henri Fournier, the French chaffeur, was crossing a railroad track in an automobile in which five other men were seated, the machine came into collision with a locomotive and disastrous results followed. All six men were hurt, and the machine smashed. The names of those in the party and the extent of their injuries were:

N. B. Fullerton, special agent of the passenger department of the Long Island facilitoad, badly cut about the head and face and compound fracture of one leg. Henry J. Everall of this city, briuses and cuts and leg sprained.

was Fournier's intention to try for the mile record tomorrow. There is no flagma at the crossing, which is hidden by dulidings, but an automatic bell is supposed to ring on the approach of a train. The members of the party say it did no ring. The railroad people assert a try of the railroad people assert and the record of the party say it did no ring. The railroad people assert the new is the lever, and Everall were thrown about fifty feet. Fuller and Batchelder were hurled fifteen feet, while Lewis and Gerrin were mixed up with the wreckage of the machine. Foxhall Keene, W. K. Vanderbilt, ir., and a party of ladies, who were starting for the Meadowbrook hunt, saw the accident and gave aid to the injured until a number of physicians arrived.

Fournier and his comoany were taken in a special car to the Nassau hospital at Mineola, L. I. Later Fournier, Everail and Lewis were brought to their homes in this city. Fullerton, Batchelder and Gerrie are still at the hospital, and the surgeons say Fullerton, though, much more seriously hurt than the others, will recover.

Earthquake In Italy.

Rome, Oct. 30.—The battle-ship of one was taken last Friday to undergo repairs to her keel, which was severely strained when she ran on the rocks some months ago. Later she will be given a general overhauling and painting. More than ordinary care was necessary on account of the strained keel, and for many days prior to the docking extraordinary preparations were made for the reception of the big war vessel.

In order that she might rest gently on the blocks, instead of pumping all the water from the dock, as is usually the case, only about six feet were taken out. Sheres were then placed in position and two divers entered the water to adjust wedges and blocks carefully about the keel before any part of the weight of the battleship was allowed to rest. The remainder of the water has since been pumped from the dock and the damaged part of the hull exposed.
